The trainer has asked that you download the **free version of Minitab.**

Here is the link: https://www.minitab.com/en-us/support/downloads/

If you are not joining from work, or don't have access to a Minitab licence, you will need to **download a trial version of Minitab in advance of the course.** If that's not possible for you, you can still join in as an observer and commentator.

Please see some useful links below for Minitab.

- See https://www.youtube.com/watch?v=7KRuFJDq3UY for a basic introduction.
The Minitab.com website itself has very good training resources e.g. https://support.minitab.com/en-us/minitab/18/getting-started/?SID=150002

Downloads

Download the latest product trials, software installation files, licensing tools, and deployment packages. You can also download templates for use with Engage.

Using Minitab® 19?

Minitab®

⚠ **Important Note for Multi-User Installations:** Before updating to Minitab, you should first verify you have the latest version of the License Manager. If you plan to mass deploy utilizing a software asset management tool, please download the Minitab Mass Deployment Package.

Minitab Statistical Software	Minitab Mass Deployment Package
Download Minitab below (64-bit only). The installation file includes all license types and all languages. (663 MB)	The Mass Deployment Package is required for a managed deployment of Minitab. All languages are included. See the Minitab Deployment Guide for more details. (663 MB)
